Dave Koble, the brilliant young "Independence" citizen of Marion, who alone of all the statesmen, can hold Col. Koppel level on questions of public enterprise, signalled himself during the flood by saving his own life and Judge Robert Wright's horse.—He tried to save the canal, but failed, and now advances the proposition that before the canal is abandoned by Rempel and the State, they must buy all the old canal horses and can 1 boats and donate them to the "Independence" party.

Thanks.—Mr. and Mrs. Asbury Voris desire to extend thanks to their neighbors and friends for kindness and sympathy during the sickness and at the death of their child.

Card of Thanks.—The family and relatives of Miss Moriarty express their thanks to the friends and kind people of Logan for the many acts of kindness and attention bestowed during the last illness of the deceased.

There is a silver lining to the clouds. The calamity develops the man. The distress moves the heart. The appeal from our suffering sister city aroused our entire people and every heart seemed

moved with the warm beat of sympathy for those in distress.

The rich and the poor alike came with offerings. It was better than a Revival. It awakened generous feeling and prompted divine impulses in every heart. It was a sight for the angels, to see at 7 o'clock, as the poor men going to their hard work toiling scarcely enough at home to keep quiet the babies at the scant table, carrying little packages of food to the City Building for the starving people whose cry of hunger reached their ears.

A sermon and a service which no church can excel was preached and practiced at our City Building on last Tuesday morning by the men and women of Logan in the work of charity which they did.

Mr. Brown, of the committee, furnishes us with the following statement of contributions:

2,000 loaves of bread; 15 boxes miscellaneous stuff, consisting of butter, canned fruit, condensed milk, cheese, chickens and other articles; 1 box butter; 9 barrels crackers; 1 box coffee; 6 barrels hams and shoulders; 7 firkins apple butter; 1 barrel apples; 7 barrels potatoes; 1 box baked beans; 1 keg kraut. Nearly two car loads.

Numbers of the ladies of Logan remained up all night, baking and cooking, whilst the men with such help as they could render, worked through the long and dreary hours, prompted by an impulse which, as Dr. Pullen says, destroys the illusive doctrine of the "total depravity of man."

TUESDAY EVENING.

The Relief Committees met at City Building.

The reports showed a generous contribution of provisions, and cash collections.

On motion Mr. C. E. Bowen was selected as Treasurer to hold the cash and disburse on the order of the committee. A statement of the receipts and expenditures will be published next week.

A telegram from the Mayor of Gallipolis, thanking our citizens, was read.

Adjourned to meet on Wednesday evening.

WEDNESDAY EVENING.

The Committee met and received reports.

C. E. Bowen reported that he had ordered from Mr. Strick 400 lbs. of shoulder, which will be cooked tomorrow, and that enough food had been secured and distributed among the ladies for baking 300 loaves of bread. Also a lot of bacon and beans.

Mr. Green moved that an Executive Committee be constituted consisting of Mrs. Brehm, Sheriff McCarthy and Lewis Brown. The motion was amended by adding Green & Pond to the committee.

The proposition to tender hospital, food and shelter for the sufferers was discussed, and it was determined that at least 100 persons can be accommodated.

action and speedy relief to the starving thousands on the river, and the hundreds of homeless people who may be quartered on our town. Immediate action is necessary.

The meeting adjourned to 7 o'clock Thursday evening. All citizens are invited.

### The Flood in the Hocking Valley.

Last week we published the local disasters attendant upon the Great Flood.

At this writing we can add but little additional information other than to give items of still greater disaster.

The Valley has been swept by a deluge unparalleled in our history. The flood of 1873 was the greatest known. This of Wednesday, February 6th, was still greater, the water being from 18 inches to 4 feet higher than ever known. The water was twenty-one feet above low water mark. Such a flood as this on a river not 30 miles from its source, is unknown to all former history.

The Valley from hill to hill was a raging current, carrying farm products, live stock, fences, trees, logs, "everything loose," as some one puts it, on the rushing tide.

The loss to the river had not yet been determined, but not less than half a million of dollars will repair the damage.

Superintendent Harlow White who traveled the length of the canal, estimates the damages to the canal at fifty thousand.

Every farmer in the Valley has lost in property carried away, and injury to land and tenements in sums ranging from one hundred to one thousand dollars.

Many incidents interesting at the time, but now threadbare by repetition, occurred. The attempt to take up carpets in the low parts of town, the wading of the sick, the swim of stock, the rescue of cattle and of men, will for years be a freside story, and is too long for publication now.

Henry Hensel was just stepping on the railroad bridge when it was torn away.

Dai McDaniel walked on the iron over the tressle of the O. & W. Va. bridge after the embankment was washed away.

Dee Friesner and Charley Barker waded from Col. Friesner's, where they were stopping, to a fence. The fence floated and the boys swam out.

Frank Baird got to Millville in haste to get to Logan, bought a boat and navigated safely to Logan in twelve minutes.

Charley McCarthy occupied himself in taking up carpets until the water drove him out of his house. He waded to the barn and was rescued by a skiff.

Treasurer West paid a boy six dollars to cross the river and tell his wife he was safe.

Sam and Bill Westernhaver's families were rescued by boats.

Jack Floyd sent his prize and premium pigs down to New Orleans, because he couldn't keep them.

Shotwell started a team on Thursday to Sugar Grove, to carry and receive mail and express goods.

The children of Israel wandered through Marion township for years, counting time by their reports.

The railroad is being rapidly repaired. A temporary bridge, resting on piles, has been thrown across the river, and cars crossed on Tuesday evening.

### A Week of Gloom.

Sunday, February 3rd, was a bright, sunny day. On Sunday night it began raining, continuing until Wednesday.

The fall of water as reported by Dr. Little, was 4.28 inches more or less rain has fallen every day since the 3rd until on Tuesday morning, the 12th, when it broke through the clouds for a moment.

Such a succession of cloudiness is unknown in this latitude. Mr. Hart tells us that 25 years ago in October, he and his wife visited St. Louis and the sun was obscured during the entire time, a period of ten days.

Dr. Dye left on last Tuesday for Marietta, to visit his mother.

A late invention for boys and girls who will kneel down on the play ground and wear out the knees of their stockings is a stocking knee protector.

### OUR LATEST LAWYER.

On last Wednesday, Mr. Will Price of our town, a law student of Col. Weldy, was admitted to the Bar by the Supreme Court. Examining Committee, at Columbus, passing a most creditable examination, and standing the highest in the class of applicants.

Mr. Price is one of our most prominent young men. He is a gentleman of irreproachable personal character. He is a scholar and well read in all the different branches of the Law.

He is a man of good sense, pleasant and courteous, possessing all the elements that make up the popular gentleman, the worthy citizen and the trustworthy lawyer.

We hope he will "hang out his shingle" in Logan where he is known from childhood and esteemed by him a liberal patronage in his profession from the citizens of Hocking county.

He has formed a partnership with Col. Weldy, and will be found attending to the business of the firm in the office in the Dillion Block.

### Memorandum in Marion.

A party of gentlemen consisting of Charley Rose, Sheriff McCarthy, Jess Butin, and the Editor of the Sentinel, caught in Columbus by the flood, on Thursday last, made the trip over land and over water to the Gulf of Mexico at Roofs Ferry, and explored Marion township on foot, walking 22 miles, cornered through the township, arriving home at midnight. The full particulars of the expedition have been prepared for publication, but the paper this week is too gloomy with calamity to tolerate a joke. The trip will be given the public hereafter.

### In Memoriam.

Peace to the dead, in green, sweet peace be thine, dear friend, who walked the Valley of Release, and made Death's self divine; Made grief a sure thing, and pain an emblem of his Cross—That faith may see in death a gain.

Departed this life on the evening of Feb. 8th, 1884, at his home on East Second Street, this city, after a lingering illness, Miss Mary Morarity, aged 29 yrs., 6 months and 22 days.

Miss Mary had been an invalid for a year and at times, suffered terribly from her disease, chronic neuritis. Throughout her illness, which she bore with patience, she had hopes of regaining her health. During the summer months, it was her assurance that autumn would bring the desired change, and later, that the genial spring time would renew her failing strength, but Providence decreed otherwise.

The Death Angel called for her as silently as a thought, and before the family could realize that her repose was also a light slumber, her soul had passed to judgment. Very peaceful and smiling she appeared, lying so quiet on the satin cushions of the white casket, with waxen flowers clustering over her white draperies. Twined round her hands, was her dear Chaplet that had soled, and sanctified many weary hours of lingering pain. The funeral services were conducted on Sunday morning, at St. John's Catholic Church, of which she was a member. High Requiem Mass was sung and celebrated by Rev. Father Cady, after which, the remains were borne to the quiet of Oak Grove Cemetery, there to await the resurrection.

May angels bear her beyond the sunlit shores of the Far away, beyond the mysterious borders, where purified souls receive their crown, find rest and sweetest peace. E.

### A Convention of miners of the Hocking Valley District is called to meet in Logan on the 18th of this month.

### NEARER TO NATURE.

Nature has made her laws with us, which we must obey or suffer the penalty. This penalty is often lung or throat trouble, which leads on to consumption. Every man believes consumption incurable. People have been educated to this belief which is proven incorrect by Dr. Bigelow's Positive Cure, which is nature's great helpmate, and it cures consumption and all throat and lung diseases speedily and permanently. Trial bottle free of Reber & Co. June 21, 1883.

### WE ALL KNOW

That water never runs uphill; that kisses taste better than that look, and are better after dark; that it is better to be right than left; that those who take Dr. Jones' Kid-Clover Tonic never have dyspepsia, costiveness, bad breath, piles, pimples, acne and malaria diseases, poor appetite, low spirits, headache or diseases of Kidneys and Bladder. Price 50 cents of Reber & Co. Feb. 15—1 yr.

### TESTIMONY FROM THE PRESS.

To those afflicted with lung trouble hear what W. D. Wilson of the Ottawa (Ill.) Times says: "After being disabled for three months with a cough, and lung trouble, often spitting up blood, can testify that I am cured permanently by the use of Dr. Bigelow's Positive Cure." A free trial bottle can be had of Reber & Co. drugstore.

### WHAT IS SAID OF THE CENTURY MAGAZINE.

"The Century has the effect of great books in editing, than any of the rival magazines."—The N. Y. Nation and Evening Post.

"From the very start this magazine holds its place as a standard of literary and artistic achievement, and for reaching have been the results. During the past year, The Century has outdone its former work in almost every one of its departments. Some of its engravings have been amazingly fine; several of those in the December number are particularly so—the portrait of Peter Cooper, especially. And its literary matter is as good as the literary side as on the artistic side."—The N. Y. Times, Dec. 1, 1883.
